

ASPSI BUILDS CAPABILITIES

ASPSI recognizes that **capability building**, the process of strengthening the knowledge, skills, and resources, of development organizations including communities is essential to be able to effectively respond to the needs of the fast-changing society that we have now. Capacity building is one of the strategies included to achieve Sustainable Development Goals (SDGs). Specifically, SDG 17 underscores the need for international support to help build the capacities of people and organizations in developing countries.

To contribute to capacity building of individuals, communities, and organizations, **ASPSI offers customized training and study tour programs** using adult learning methodologies to ensure effective knowledge, technology, and skills transfer. Considering its decade of managerial and administrative experience in support of in-country and overseas training and study tour programs, **ASPSI provides professional, friendly, and flexible training management services to its clients.**

For the past 16 years, together with its partners and pool of experts, ASPSI has designed and implemented in-country and overseas training courses and study tour programs, which included the **Training on Conflict Management for Bangladesh Bank Officials; Capacity Building and Technology Transfer on Impact Evaluation for the Philippine Government Officials; Training on Gender and Development in Tajikistan; Training on Strategic Communications and Media Relations in Cambodia; Pilot implementation of the eLearning Course on Local Nutrition Program Management for the Philippine Local Nutrition Workers; and Training on Evaluation Design, Data Gathering and Analytical Methodology for the Philippine Government Officials.**

CONTACT US

OUR VISION
Top global provider of social development solutions.

OUR MISSION
Provide professional expertise and technical services in planning and implementation of development projects.
Enhance the capability of institutions in mobilizing and managing innovative and sustainable social and human resources development programs and undertake advocacy work on the same.

ABOUT US
The Asian Social Project Services, Inc. (ASPSI) is an international consultancy and training service provider catering to the underserved sectors of the society. It is registered with the Philippine Securities and Exchange Commission since 2007.

OUR GOAL
Uplift the socio-economic well-being of underserved communities.

For almost two decades of consulting management experience, ASPSI has established its capability to implement social, economic, and environmental management and development studies, including monitoring and evaluation, baseline/midline/endline surveys, impact assessment, market research, behavioral change communication studies, and policy studies, employing quantitative and qualitative research approaches. As a training service provider providing flexible management services and logistical support, ASPSI has also designed, and conducted training and other multidisciplinary staff development programs for its clients and partners locally and internationally.
